

LOFTED FIBER

DESCRIPTION

Fiberworx lofted fiber products are thermally bonded, making them ideal for applications requiring thicker, or fluffier materials.

HIGHLIGHTS

- Odorless
- Self-extinguishing
- Mildew/bacteria resistant
- Flexible
- Easily laminated
- Strong acoustic and thermal insulation
- Chemical resistant

APPLICATIONS

- High-Loft
- Dual Impedance
- Light Weight Facings
- Headliner Silencers
- Pillar Acoustics
- Trunk Silencers
- Wheel House Liners
- Under Carpet Insulators
- Engine Bay Acoustics
- Dash Silencers
- EVA/Fiber Composites

PROPERTIES

DENSITY	100-1800 GSM
THICKNESS	5-100MM
MAX WIDTH	100+”
COLOR	White, black, or charcoal
MATERIAL SELECTION	Virgin or recycled

SPECIFICATIONS

- GMW14194 Level C
- Ford WSS-M99P32-E1
- FCA MS-HZ-100 C
- FMVSS 302
