Polyfill LLC products, services and environmental practices will strive to meet or exceed our customers' expectations and deserve their confidence in our ability to consistently satisfy their requirements.

We have the responsibility for quality, growth and profitability. We form teams for communication to foster total participation, prevention of pollution and continuous improvement.

An integral part of our work will emphasize defect prevention and a commitment to compliance with current ISO-9001, ISO-14001 standards and all government and environmental legislation, regulation and requirements.

Our objectives will be accomplished by expecting and accepting nothing less than excellence in our performance and products.

The Polyfill Policy is summarized in one statement:

**Exceeding Worldwide Customer Expectations
Through Commitment to Quality & Innovative Solutions**

Carl Marshall
